Why TechWest?

If you are looking to improve your construction skills, TechWest Sydney can help you. Our trainers have an enormous depth of construction knowledge and practical experience that is made relevant to you and your current circumstances. TechWest Sydney delivers a more personalised training experience that enables the course content to be successfully and readily implemented by you.

Does this course suit you?

This qualification provides an occupational outcome and a range of support tasks applicable to a majority of construction sites.

Completion of the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (ASCC 2007) is required before entering a construction site. Achievement of unit CPCCOHS1001A covers this requirement.

How we deliver the training

This course is delivered by face to face learning and includes flexible classroom delivery, workplace simulation, assignments, assessment tasks and workplace activities.

The use of Skills-Tracker for workplace assessment is essential as part of your evidence requirements.

You are assured of a full support base from our experienced personnel. Our trainers are available to assist participants by either email or in writing throughout the duration of the course.

Course Duration

TechWest Sydney offers our Certificate II in Construction in two formats:

- 12 month course duration, 1 day per week for 40 weeks
- Design the course yourself to suit your needs, duration will be based upon which units are selected.
